

ABOUT VICTOR BUCK SERVICES

Victor Buck Services launched in 2000 as a financial document management and distribution service provider with PFS status in Luxembourg.

We are an international firm offering full-scope services in information and data extraction, management, storage, protection and distribution essential to business activities.

Over 900 entities worldwide benefit from our expertise in customer communication, content and outsourcing services.

In 2019, Docunify, the Luxembourg-based start-up winner of the 2018 FEDIL innovation prize, joined our family. Docunify completes our offering by providing clients a secure collaborative space for teams, suppliers, partners and prospects.

FREEDOM TO FOCUS ON WHAT REALLY MATTERS

Companies face crushing administrative and legal obligations. Fulfilling these duties is time-consuming and costly. Paper-based methods are notoriously inefficient. Worse, they hinder collaboration and pose confidentiality and security risks.

and forth through email or registered mail? What if real-time collaboration among all stakeholders were possible – no matter their location and time zone? Lightening your administrative workload lets you focus on your core business.

How can you serve your clients' needs more effectively? Where can you streamline practices? Can you reduce time-wasting repeat work and cut out the costs and risks associated with sending documents back

Introducing Docunify, a highly-secure collaborative space to propel how you serve your clients into the digital age.

COLLABORATION MADE EASY, ANYTIME AND ANYWHERE

Docunify provides demanding companies with a single, fully-integrated and highly-secured solution for all your crucial business collaboration needs. With this proprietary SaaS package, there is nothing to install, upgrade or service and full 24/7 access from anywhere and any device.

Docunify's features include:

✓ **A full document creation, collaboration and sharing platform**

Docunify's embedded office suite lets you create and share documents online easily. Internal and external stakeholders can work on the same document and interact via chat. Boost collaboration and efficiency while doing away with repeat work, emailing and printing documents.

✓ **Centralized document hosting**

All your documents are stored on our Tier IV private servers in Luxembourg. Access your work 24/7 from anywhere and any device. Features include advanced user management, real-time document updating, and dedicated user data vaults in which to store working and private documents.

✓ **Pre-defined modules**

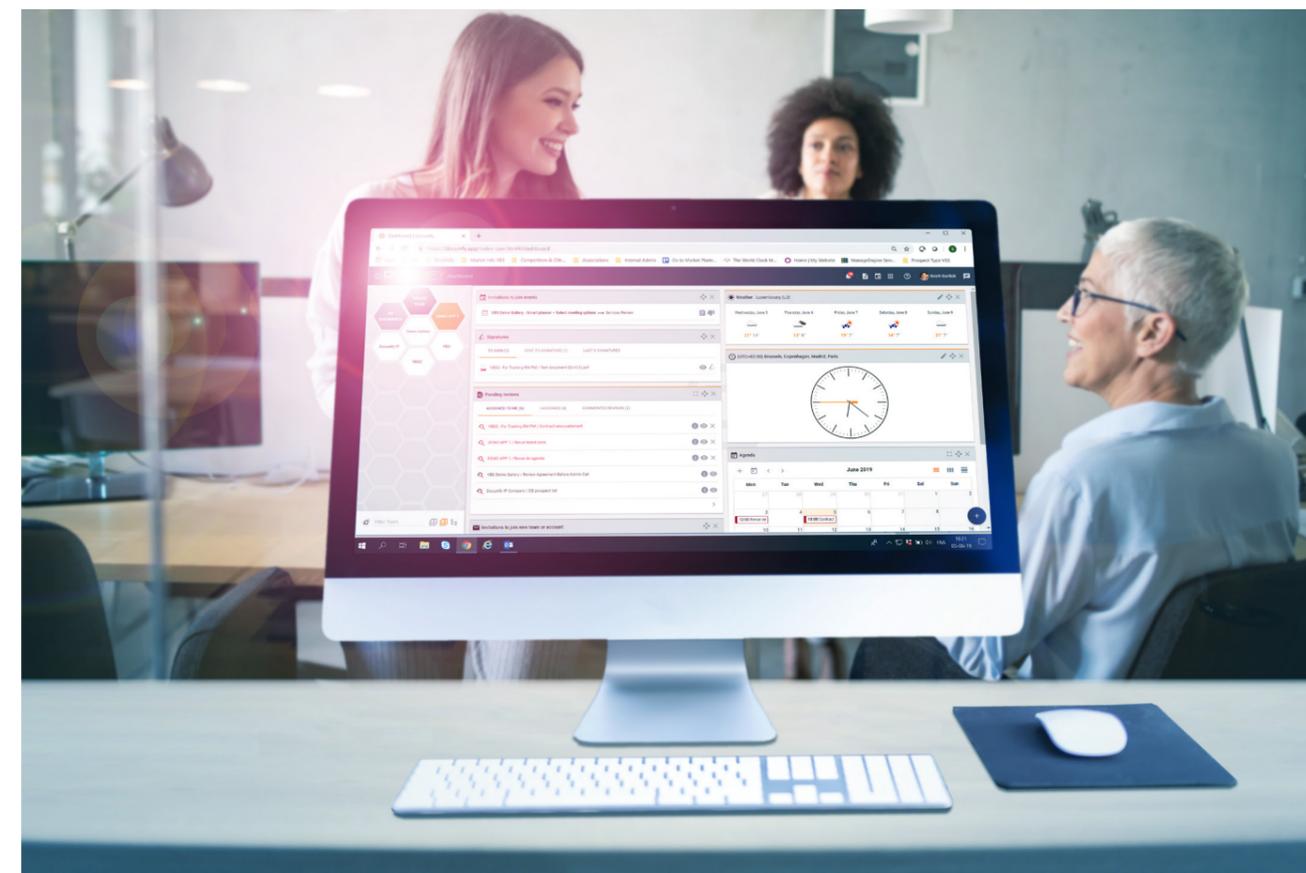

Preparing board meetings and other such regulated events is no longer a time-consuming chore. You can create official documents, approve invoices and apply digital signatures easily thanks to our pre-defined processes. And you can create your own!

✓ **Smart planner**

With Docunify's online planner, it's a breeze to find the right date, invite participants and share meeting documents.

✓ **Digital signature**

Docunify's digital signature feature is eIDAS compliant, the most stringent standard in the world, and includes a dedicated certificate of conformity. Legally sign documents in just a few clicks!

A COMPREHENSIVE DIGITAL SOLUTION

Docunify is a feature-packed & fully-integrated solution that requires no installation, maintenance or upgrades that can lead to security breaches. Designed from the ground up for users, its user experience and interface design ensure quick adoption and intuitive practice.
